

## STEP 1: Download and Extract the ZIP File

1. **Get the ZIP file** from your source (Google Drive, Email, etc.).
2. **Right-click > Extract All** to unzip it (e.g., to Downloads/MITHRON\_Dashboard).
3. The folder should contain:

```
MITHRON_Dashboard/
├── assets/
├── data/
├── src/
└── requirements.txt
└── README.pdf
```

## STEP 2: Make Sure Python is Installed (v3.8+)

1. Open the terminal:
    - o Press Windows + R → type cmd → hit **Enter**.
  2. Type: `python --version`
-  If it shows Python 3.8 or higher, continue.
-  If not, download and install Python from:  
 <https://www.python.org/downloads/>
-  During install, check "**Add Python to PATH**".

## STEP 3: Install Required Libraries

1. In Command Prompt, navigate to the `src` folder:

```
cd path\to\MITHRON_Dashboard
```

2. Install required Python packages: `pip install -r ..requirements.txt`

## STEP 4: Run the Streamlit App

1. In the same Command Prompt window, type: `streamlit run src/app_v1.py`
2. Your browser will automatically open: `http://localhost:8501`
